# STREET INDEX.

*An Index to the Ordinances and Resolutions (1797 to Sept. 1900) affecting the opening, closing, widening, naming, paving, grading, etc., of the streets, alleys, lanes, roads, wharves, docks, parks, railroads, railways, sewers, etc., in the City of Baltimore. Also, the Acts of Assembly (1732 to 1900) referring to the same; the Land Records of the Mayor and City Council; together with the plats and Street books in the office of the City Librarian, City Engineer, Topographical Survey, Harbor Board, and Commissioners for Opening Streets, as well as data from other sources.*

THE compilation of this Index was begun early in 1897, and was intended originally to include the Ordinances and Resolutions relating to streets only. The other references have been added from time to time

It is desired that the book be regarded merely as a beginning in the direction of a City Property Book, so often suggested.

Where there are so many thousand references there will, no doubt, be errors of omission and commission, for which a kindly charity is asked.

To the friends who have aided with their help and suggestions, many thanks are returned, especially to Mr. Carl Casey, Clerk to the Commissioners for Opening Streets, who has reviewed all the street work, particularly that for the past twenty-five years.

GEORGE W. MCCREARY.
